

I am writing to express my concern over the LPFM stations and the possible effect it could have on the K-LOVE signal. K-LOVE offers a unique service in playing music that is positive and full of love, compassion, and charity. Many other stations play music that include offending commentary and vulgar music that is not helpful to children or any audience of that manner. I urge you to please not allow a radio station that reaches over 1 million people to not be hurt by LPFMs. Thank you for your time.
